

## The allround abrasive wheels with longer lasting endurance.

DIMO® – these are the perfect abrasive wheels for professional finishing of pressure moulding foils, hard and soft plastic materials and metals. The soft elastic wheel with the open nonwoven structure are best suited for grinding and finishing of silicones, polyurethane and other soft remaining resins. The optimized material, the minimized unravelling as well as the low thermal development guarantee a much longer life of the wheels.

*A coarse grinding wheel (brown) for effective abrasion.*

- DIMO® brown, coarse 10 pcs. #3382.1
- DIMO® brown, coarse 50 pcs. #3382.2

*A medium grinding wheel (green) for soft finishing of edges.*

- DIMO® green, medium 50 pcs. #3383.2

*A fine grinding wheel (maroon) for clean smoothening.*

- DIMO® maroon, fine 10 pcs. #3384.1
- DIMO® maroon, fine 50 pcs. #3384.2

## The allrounder with the most powerful endurance!

The working time of DIMO®PRO wheels is many times longer than the one of comparable products. It's the combination of a special latex mixture and the fine nonwoven structure that makes the DIMO®PRO so versatile. Depending on the rpm, perfect grinding, smoothening and polishing is possible – using only one wheel: A real plus for the user.

*The marathon-grinding wheel: The unique latex filled mixture suits all purposes.*

- DIMO®PRO Disc 24 x 6 mm 10 pcs. #3381.1
- DIMO®PRO Disc 24 x 6 mm 50 pcs. #3381.2

*Extra slim for superfine applications.*

- DIMO®PROSLIM Disc 24 x 4 mm 10 pcs. #3376.1
- DIMO®PROSLIM Disc 24 x 4 mm 50 pcs. #3376.2

*Suitable for all 5 wheels. (Each package of DIMO®-contains 1 mandrell free of charge.)*

- DIMO® Mandrel 10 pcs. #3380.1
